- Allow stakeholder representatives to review community feedback in order to clearly define the district's mission, vision and core values.
- Engage a team in defining the priorities of the district and suggesting action steps to accomplish objectives.
- Facilitate action planning focused on identifying who, when and how the work will get done.
- Provide the district with a road map that is transparent, accountable and focused.
- Enable the district's efforts to innovate, allocate resources and continuously grow in a coordinated, thoughtful and aligned manner.
- Implement an iterative, evolving and ongoing process that builds from one year to the next while reflecting emerging needs and changing demands.
